CS110: Introduction to Computing Class 9 Practice Exam Question

Trace through a call to mystery (2, 5, 5). What will get printed?

```
void mystery(int a, int b, int c)
{
    for(int i = 0; i < c; i++)
    {
        println(a);
        int d = a;
        a = b;
        b = d + a;
    }
    println(a);
    println(b);
}</pre>
```

Write what gets printed here:					

а	b	С	d	i
