Each group has 15 minutes plus 5 more for questions. You will be live-demoing your code, so make sure you select and practice the commands ahead of time so you do not lose time on the “demo effect”. Class will be held in lab (Park 232) instead on this particular day so that we do not have to switch rooms half way through.

Presentation order:
1. Erica Blum, Derek Roth, Chandler Todd
2. Trista Cao, Eileen Feng, Rachel Xu
