Area	Area Pts	Specifics		Specific Points	Points Lost
General	2	Page Formatting		1	
		Bird Names		1	
Intro	30	Motivation		5	
		Quicksort Algorithm Explanation		5	
		Hybrid Algorithm Explanation		5	
		Why hybrid is not O(N*N) since it runs insertion whole array		5	
		What algorithm does library use?		5	
		Describe algorithm if appropriate			
		Clear statement of experimental expectations/ hypotheses and explanation of		5	
Methodology	25	Fisher-Yates shuffle explanation		5	
		How data points are collected		10	
		Discussion of variance sources and how methodology mitigates / eliminates variance sources.		10	
Results/Analysis	30	Graph of results (table in appendix, probably)		5	
		observations you can make about the comparative performance		25	
Conclusions / Contributions	5	A good summary of findings		5	
References	3			3	
Appendix	5	All Code		4	
		table of performance data (if not in body)		1	
Extra Credit	10	Dual Pivot data in graph (may be a separate graph)		3	
		Description of Dual Pivot algorithm		4	
		observations you can make about the comparative performance		3
